

[Tenorshare ReiBoot Pro 7.3.1.3 Crack With License Key \[Latest\]](#)

The image shows a screenshot of the ReiBoot Pro software interface. The title bar at the top is blue and contains the text "ReiBoot Pro" on the left and window control icons (Facebook, menu, close) on the right. Below the title bar, there is a light blue header with a back arrow and the text "Fix All iOS Problems". The main content area has a white background and contains the following text: "No device detected! Please connect your device and follow the steps below to put your device in Recovery Mode to get it detected." Below this text, there are three columns representing different iPhone models: "iPhone 8 / 8 Plus / X", "iPhone 7 / 7 Plus", and "Other iPhones". Each column has an illustration of a hand holding a phone and performing a button press. Under the "iPhone 8 / 8 Plus / X" column, the text reads: "1. Connect your device to PC via USB cable. Quickly press and release the Volume Up button and then the Volume Down button. Long hold the Power button until the screen turns completely black". Under the "iPhone 7 / 7 Plus" column, the text reads: "2. Continue holding the Power button, even after you see the Apple logo appear." Under the "Other iPhones" column, the text reads: "3. Release the Power button till the screen shows 'Connect to iTunes'". At the bottom of the interface, there is a link: "If you are unable to put the device into Recovery Mode, please click here to [enter DFU mode.](#)"
