You should also book at least one hour or two for this process The exact time depends on the speed of the Internet connection and the speed of the Mac.. Select the installation disk and wait for loading 2 b Delete the hard drive Before doing this, make sure that you have backed up the data as described in step 1.. Shutdown, start with Command-R re-plug USB drive format new hard drive, Yosemite charging from USB to new hard drive, and then turn off, starting with Command-R, invite Time Machine backup.. I deleted the most important partition and when I try to repair OS installation, it connects to the Internet and says it possible I will continue and I should contact Apple Support.. You agree to pay us for all paid services you purchase from us and for all other charges that apply to your account, including applicable taxes and fees.
